# A world-class hospital that gives birth to hope.

At Shree Krishna Hospital, we understand that becoming a mother is one of the biggest dreams for a woman. Our facilities for women and child care are one of the best in the country. Aided by a group of experts and support staff, we ensure that every aspect of a woman and child's health – from pregnancy to paediatric care to menopausal support – is looked after.

## SHREE KRISHNA HOSPITAL

With an experience of over 35 years, Shree Krishna Hospital is the most dependable destination for healthcare. Our comprehensive set-up ensures that you do not have to move from pillar to post for any essential medical care required during treatment. The experienced team of experts and well-trained support staff makes sure you receive care with steadfast dedication and warmth.

### Facilities:

- Team of experts include experienced gynaecologists and paediatricians
- Accredited diagnostic services
- Accommodation from general to privilege categories
- Support teams including physiotherapists, psychiatrists, psychologists and dieticians
- Neonatal and paediatric Intensive Care Units

### Our Speciality Clinics:

- **Infertility Clinic:** The clinic offers guidance and information to those couples who are having difficulty in conception or have infertility. We have three diagnostic packages that help in finding the problem and the basis for an appropriate treatment required.
- **Parenting Clinic:** The clinic offers services before pregnancy, care during pregnancy and post delivery care with a range of facilities which help to make parenthood a pleasant experience. Pre-Pregnancy counselling, advice, customized diagnostic packages, medical care during pregnancy, intervention of physiotherapists and nutritionist for proper care of mother and child, availability of facilities and experts for high risk pregnancies and deliveries, critical care set-up, neonatologist and paediatricians for the new born care, all the services work in cohesion ensuring a healthy and safe motherhood.
- **Menopause Clinic:** The clinic offers a holistic care to ensure a smooth transition from reproductive stage to menopause. Experts help you find out the best options of care that you need during this stage which include medical care, physiotherapy, counseling, nutritional guidance and psychological intervention to ease the transition.

- **Adolescent Clinic:** The clinic offers all the services to help a child embrace the changes on the onset of his or her adulthood. In females problems related to menstruation, hormonal changes, obesity, hair growth in appropriate places, PCOS (hormonal imbalance), psychological stress, etc would be addressed. And in males, problems related to growth, identity crises, obesity etc would be taken care by experts with a multi-disciplinary intervention.
- **Development Clinic:** The clinic offers services for assessing and monitoring the physical and mental growth of children and intervening with appropriate solution wherever required. Problems related to delayed physical and cognitive development, behavioral concerns, social and learning skills etc, all of which are instrumental for a normal childhood would be assessed and advised appropriate help.

## PATIENT TESTIMONIALS

*My son Harikishen was named as a token of gratitude to Shree Krishna Hospital. My wife had had 22 miscarriages and we had almost given up hope of a delivery, when we were referred to the Hospital. Despite several complications, my wife delivered a healthy baby boy thanks to the doctors and staff at the Hospital.*

– Mangalbhai Parmar, Biplad, Anand

*I am really grateful to Hospital's Woman and Child Care team for helping me through my pregnancy and delivery. I received excellent care before, during and after my pregnancy, and all my concerns were addressed very patiently by the team.*

– Dr Anusha Prabhakaran, Karamsad
