The Ramanbhai Gokal Privilege Centre is an extension of the hospital to serve those who wish to be treated in a personalised manner and in an environment that respects their privacy. The luxurious facility has about 60 exclusive beds in Gold Rooms, and Platinum and Diamond Suites.

A world away from the chaos of the crowds and surrounded by 100 acres of lush greenery, NABH-accredited Shree Krishna Hospital is an ideal environment for rest and recovery. Today, the hospital is ranked among Gujarat's most professional healthcare centres, complete with facilities like ICUs, OTs, a Trauma Centre, NABH-accredited Imaging Services with MRI and CT Scan machines, NABL-accredited labs, and an NABH-accredited blood bank. It also houses a world-class Cardiac Centre and a modern Cancer Centre, with a Linear Accelerator and facilities for chemotherapy. A state-of-the-art Bone Marrow Transplant Unit will also be operational soon.

At Shree Krishna Hospital, we believe that the very core of medicine is care and a helping hand. It's this that leads us to not charge any registration or consultation fee for outdoor consultations and medical advice for our general services. Nor do we charge for stay or diet in our general wards. We do not turn away a single emergency case. We even offer substantial discounts in our treatment cost to those living below the poverty line, women and children.
