

From the chairman's desk

Dear Well-wisher,

Greetings from Charutar Arogya Mandal (CAM)!

I'm privileged to have your unconditional trust and faith in the cause of extending quality health care to those residing outside the periphery of the development cycle. Cherishing the "Golden Era" together is indeed a feeling of joy and fulfillment, laden with unforgettable memories, struggles, and achievements, it is a thrilling milestone of CAM. We have been touching the lives of the underprivileged, making impacts step by step, and today we are not just a destination to provide quality and affordable health care to over half a million patients in a year but have also been able to create empathetic medical professionals under the established banner of "Bhaikaka University". We are advancing day by day to make the 1000-bed hospital with 18 super-specialties a state of the art health-care facility.

It gives us great pride to share that, our Lab facility received renewed accreditation from the National Accreditation of Board for Testing and Calibration Laboratories (NABL) under 'Medical Laboratories Requirements for Quality and Competence,' Our Institute of Physiotherapy was bestowed with the 'Unified Champion School Distinction Award' by Special Olympics International, for achieving the National Standards of a Unified Champion School.

To expand the reach to underprivileged patients, we constantly strive to enroll more families under our Aashirwad Scheme, offering highly subsidised treatment. And to keep the health-care providers, paramedical staff, and support staff motivated for the cause, we cherish celebrating significant events and occasions like Doctor's Day, International Nurses Day, etc.

In a process to keep our services technologically advanced and updated, the Shree Krishna Hospital has included the new Linear Accelerator machine for offering advanced precision Radiation Therapy to cancer patients. The Neurosurgery Department has added neuro-intervention procedures and mechanical thrombectomy for patients affected with acute stroke. Very soon, we are also planning to introduce the PET-CT facility within our services spectrum.

Heartfelt wishes on the occasion of the "Golden Era" of the Mandal.

We wish a continued journey together.

Atul Patel
Chairman, Charutar Arogya Mandal

DONOR'S VIEW

“ This Hospital is wholeheartedly performing its true medical duties. It provides emergency medical treatment to poor, needy patients without discriminating based on their financial capacity. For this great noble activity, I appreciate the board of trusted members, doctors, supporting staff, and other well-wishers. ”

Shri Tusharbindu Desai (Regular Donor & Wellwisher)
Ahmedabad

“ Most importantly I am putting trust on CAM the way it helps to poor patients. This type of initiative helps to those who could not afford their own treatment. The ultimate goal of Shree Krishna Hospital, is to help such indigent people.

I also believe in this cause, and as per individual capacity I extend my support to the institute. Considering that CAM do 100% help to the needy people, I also invite the others to contribute to maximise the impact reach. ”

Shri Jigar Shah (Regular Donor and Wellwisher)
Vadodara

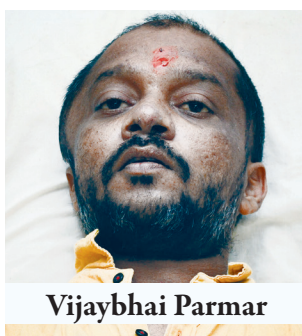

STORIES TO REJOICE**Aliya R Vohra**

Playful child Aliya (name changed), is 2 years old and daughter of Razakbhai Vohra from Anand district. In June '22, she had complain of fever with skin rashes but no treatment was taken, and the problem got relieved on its own. After that she had history of fall down which injured her right shoulder. She was not able to raise/move her hand. Due to paleness and weakness of the body, in July again she got admitted to the hospital where has detailed investigations were carried out. She was given injection of vitamin B12 and 1 unit of PCV was transfused.

In her blood reports, the doctor suspected some blood disorders and decrease in count of platelets. Bone marrow biopsy was suggested to the parents which was done in August. She was diagnosed with Pre B cell Acute Lymphoblastic Leukemia (ALL) cancer (Blood Cancer) in treatments of six months chemotherapy and IVIG were administered at different stages, under the guidance of the Hematologist of the Hospital. Bone marrow procedure was carried out after some time of this treatment. And now, she is doing well and is under maintenance treatment for next 1.5 year. The family thanked the team of doctors, hospital and all donors for providing support.

18 years old, Vishalkumar Arvindbhai Sindha is from Dhuvaran village of Anand district. During his apprentice training, an iron nail accidentally thrust in his leg at Dhuvaran ITI. Unfortunately As he was not treated on time, as a consequence his mouth started closing from the second day. His parents took him to a local hospital in Dhuvaran for treatment. There the doctor told that he has caught Tetanus. He was referred to Shree Krishna Hospital, Karamsad on worsening of the situation.

When Vishalkumar was admitted to our hospital, he was having frequent convulsions, so he was immediately put on ventilator support, iron, antibiotics, and muscle release drugs. He was discharged after 35 days of medical treatment under the constant care of experts. But as his socioeconomic situation was not that good, his parents were worried about the cost of treatment. It was taken care by the Mandal's esteemed donors. Vishalkumar and his family thanked all the donors who supported his treatment, he got discharged and went home with a smile on his face. The parents thanked everyone including the donors.

**Vishalkumar Sindha****Vijaybhai Parmar**

33-year-old Vijaybhai Chhotabhai Parmar hails from Vadtal village, Anand district. He supports his family by doing painting work. One day while returning home from work he met with a serious road accident. He was brought to the Trauma and Emergency Centre of Shree Krishna Hospital and was immediately posted for a CT scan. He was diagnosed with severe brain hemorrhage and his skull was fractured which further damaged his sensory and motor faculties

A craniotomy and neurosurgery were immediately performed on him, after which he was admitted to the ICU with a ventilator. His wife took care of the initial cost of treatment after that requested the Mandal for help. After assessing their socio economic condition, financial assistance was provided with the help of donors. After 31 days of intensive treatment, Vijaybhai was discharged under home care. The family received support to manage their livelihood and expressed their gratitude to all the supporters and doctors.

PATRONS' VISIT

On June'23, Mrs. Binaisha Piruz Khambatta (Director of Rasna Foundation) & Mr. Mehul Shah visited our NICU and rest of the hospital. Recently they have extended support to our NICU. Dr Jitesh Desai, Medical Superintendent, apprised the visitors about the activities of hospital, and also the opportunities for future partnerships.

Mr. Utpal Shah (nephew of Shri Chandravadan Shah, Mumbai) visited the Mandal in April'23 to review the progress of supported solar project and of upcoming solar project which aims at reducing the carbon footprints on campus.

KEY HIGHLIGHTS

- We celebrated the International Nurses Day 2023 and felicitated 29 best nurses who have shown their excellence patient care efforts.

- K. M Patel Institute of Physiotherapy (KMPIP) was bestowed with the 'Unified Champion School Distinction Award' by Special Olympics International, for achieving the National Standards of a Unified Champion School.

- On 135th birth anniversary of Shri Bhaikaka on 7th June 2023, the family members of Bhaikaka and employees of Bhaikaka University paid floral homage to him.

- The Neurosurgery Department of the hospital started neurointerventional procedures on a routine basis, which include emergency procedures like mechanical thrombectomy for acute stroke and elective procedures like aneurysm coiling, flow diverter placement, Embolization for A-V malformation, etc.

- The Gynecology Department gave a new lease of life to a 50-year-old & 34-year-old women, by removing their ovarian cysts, which weighed over 3 kgs.

- A 19-year-old boy who tried to attempt suicide by inhaling two tablets of celphos (pesticide) was successfully treated with the help of ECMO therapy at Critical Care Centre. This was one of its kind of clinically challenging case where the patient's life was saved despite very slim chances of survival. The collective efforts and expertise of the Doctors of our Critical Care are responsible for this achievement.

- NICU doctors performed a peritoneal dialysis on the newborn and saved her life, born with difficulty in breathing, suffering from pneumonia, kidney severely injured and had not been passing urine since birth.

- Shantaben Suryakantbhai Desai (Vaso) Diagnostic Centre received a renewed accreditation from the National Accreditation Board for Testing and Calibration Laboratories (NABL) under 'Medical Laboratories - Requirements for Quality and Competence.'

“Helping others and empowering people is what motivates us the most. There are times when the people around us need that extra drive to get going. We relish the opportunity to reach out to such people. It gives us a sense of confidence and the belief that we can be of some help. Lending a helping hand is about making the person feel upbeat, energetic, and positive. People keep joining, and we just try to do better with your help”
